Ideation Phase
Brainstorm & Idea Prioritization Template

Date	31 January 2025
Team ID	
Project Name	Implement Client Script & UI Policy (Incident)
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

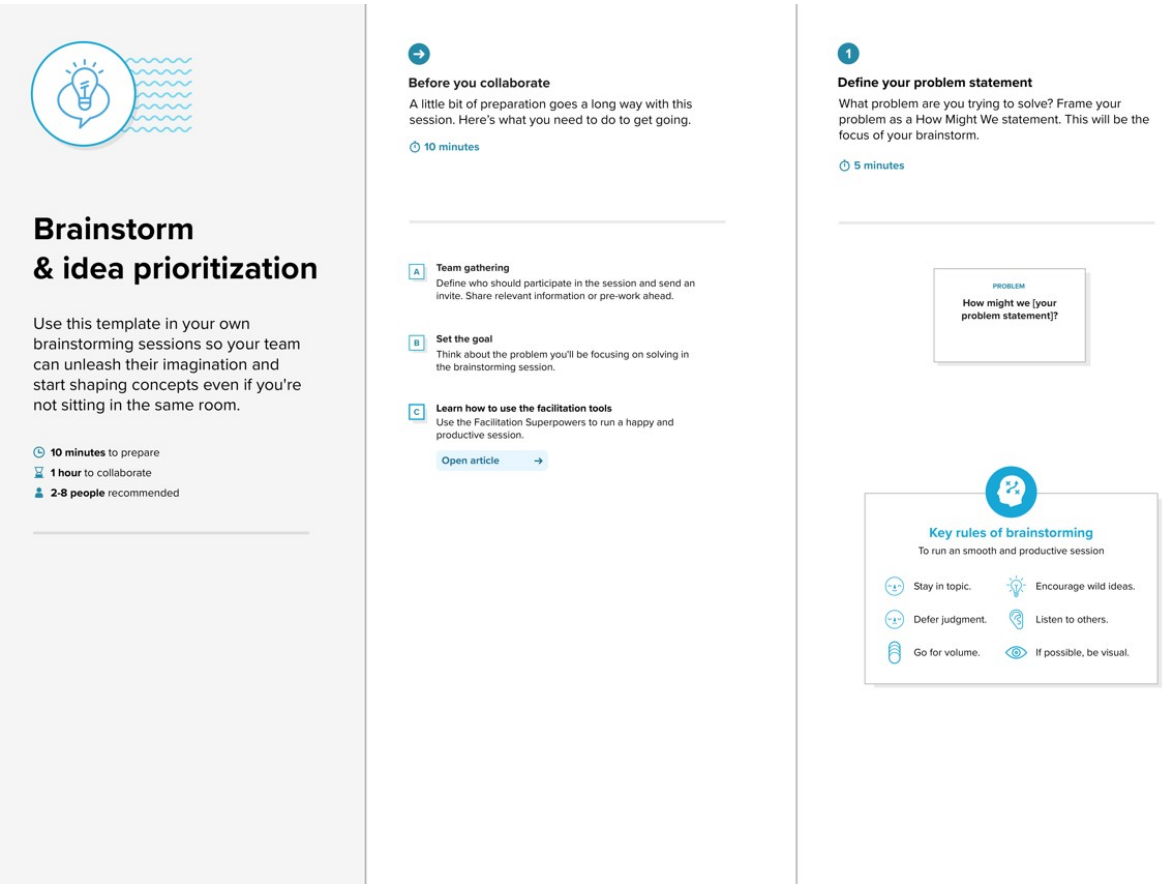

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Selected problem statement: Incident form fields are not dynamic or validated, so users miss mandatory data and raise inaccurate incidents.

Step-2: Brainstorm, Idea Listing and Grouping

Ideas: make Short Description / Category mandatory with a UI Policy; hide or show fields by Category; make Close Notes mandatory on Resolved; read-only Caller after save; onChange Client Script to auto-fill Assignment Group; onSubmit validation alert; onLoad message for P1 incidents.

Step-3: Idea Prioritization

Prioritized (high importance, high feasibility): mandatory fields via UI Policy, onChange auto-fill client script, onSubmit validation, conditional field visibility.

4

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes

Importance

If each of these tasks could get done without any difficulty or cost, which would have the most positive impact?

Feasibility

Regardless of their importance, which tasks are more feasible than others? (Cost, time, effort, complexity, etc.)
